## Certification of Pool/Spa Anti-Entrapment Cover Installation

On January 1, 2007, the Swimming Pool Safety Act of 2006 (Assembly Bill 2977) became effective and will require the following:

Whenever a building permit is issued for the remodel or modification of a single family home with an existing swimming pool, toddler pool, or spa, or whenever an existing swimming pool, toddler pool, or spa, is remodeled, the permit shall require that the suction outlet(s) of the existing swimming pool, toddler pool or spa be upgraded so as to be equipped with an anti-entrapment cover meeting current standards of the American Society for Testing and Materials or the American Society of Mechanical Engineers (ASME/ANSI A112.19.8-2007).

An inspection is required to verify compliance with the above noted requirement prior to final approval. If you do not wish to drain your pool to facilitate this inspection, you may choose to complete and sign the certificate below attesting compliance with the above noted requirement.

### Certification

I, \_\_\_\_\_ (Print Name), hereby certify that I am the owner of the property located at \_\_\_\_\_ (Site Address), and that the suction outlet(s) of the existing swimming pool, toddler pool or spa is equipped with an anti-entrapment cover meeting the current standards of ASME/ANSI A112.19.8-2007.

Permit No.: \_\_\_\_\_ Date: \_\_\_\_\_

Home Owner's Name & Signature: \_\_\_\_\_

# ATTENTION POOL OWNERS

## Requiring Anti-Entrapment Suction Outlet Cover

**Avoid Body Entrapment**

**Avoid Evisceration**

**Avoid Finger Entrapment**

**Avoid Hair Entanglement**

Effective January 1, 2007, Swimming Pool and Safety Act of 2006 (Assembly Bill 2977) requires the following:

Whenever a building permit is issued for the remodel or modification of a single family home with an existing swimming pool, toddler pool, or spa, or whenever an existing swimming pool, toddler pool, or spa, is remodeled, the permit shall require that the suction outlet(s) of the existing swimming pool, toddler pool or spa be upgraded so as to be equipped with an anti-entrapment cover meeting current standards of the American Society for Testing and Materials or the American Society of Mechanical Engineers (ASME/ANSI A1 12.19.8).

An inspection is required to verify compliance with the above noted requirement prior to final approval. If you do not wish to drain your pool to facilitate this inspection, you may choose to complete and sign a certificate attesting compliance with the above noted requirement.

The City's interpretation of the wording "a building permit is issued for the remodel or modification of a single family home" to mean any building permit issued for work on the property except for maintenance, replacement and/or repair permits such as water heater replacement permit, gas line repair permit, foundation repair permit, etc.
