10. How much time do I have to pay my sewer bill?

Your sewer bill is due 28 days from the issue date. Late payments are assessed a 10% penalty and accrue interest at 1.5% per month. Please note that payments through the City’s website may take up to 3 business days to post to your account.

11. Can I change the due date of my sewer bill?

No. The due dates are based on current water meter reads that are provided by the water districts (Helix Water District or Padre Dam Municipal Water District).

12. Can I make payment arrangements?

No. A lien is placed on the property for delinquent balances and unpaid delinquent amounts are added to the owner’s property tax bill.

13. I’m a tenant, why do you send a bill to my landlord?

The City of El Cajon generally sends regular bi-monthly bills to the billing party, alone. When the bill becomes delinquent, a past-due notice is sent to the billing party and a duplicate notice is sent to the property owner. Property owner notices are necessary, because delinquent balances can become a lien on the property, which may be added to the owner’s property tax bill.

14. I’m going on vacation, what can I do about my sewer bill?

For most single-family residential customers, typically your sewer charge remains the same amount for a twelve (12) month period beginning with your July/August bill and ending with your May/June bill. You can always prepay your account before you leave on vacation.

Pre-payments can be made by calling Customer Care at (619) 873-1660 or in the Finance Department, located in City Hall at 200 Civic Center Way, El Cajon. Please note your customer and account numbers on the check.
